Daniel,

I don't believe a meeting time and duration has been communicated back to you yet, sorry for the delay. We are proposing a start time of 9:30 AM for a 2 hour meeting on February 10. Please let us know if this will not work on your end.

Thank You,

Mike,

Your proposed conference date of February 10th works for us. Please provide an arrival/duration time when you have one.

Also, regarding the modeling files, EPA used the input file provided by MPCA with the stack data provided in your recent response to our information request. The model was run for the 1-hour average as opposed to the old 3-hour, 24-hour, and annual averages.

Thanks.
